## SUMMARY

---

I am a passionate software engineer who codes to make the world a better place. With a strong commitment to continuous learning, I actively engage in personal projects, open source contributions, and stay up-to-date with industry trends. I am excited to join a team of like-minded individuals to make a positive impact in the software engineering field.

## EDUCATION

---

### Bachelor of Science, Computer Science (4.0 GPA)

Jan. 2023 - Jan. 2025

Arizona State University

### Backend Software Development Certificate, Co-Developed with Amazon

Sept. 2021 - Nov. 2022

University of Southern New Hampshire, Kenzie Academy

Coursework: Software Engineering, Algorithms and Data Structures, Computer Architecture, Networks, Operating Systems, Backend/Frontend Development.

## PROJECTS

---

### Full-Stack Developer

Oct. 2022 - present

MemoWish

- Designed and built an application to send scheduled messages to loved ones on special days (e.g., birthdays)
- Developed RESTful API using Spring Framework for the backend
- Created frontend using React and TypeScript
- Implemented DynamoDB as the NoSQL database and user authentication through AWS services
- Currently have over 100 messages scheduled with active users.

### Web Developer / Personal Project

March. 2023 - present

Space Snippets

- Created a web application to make learning about the universe fun through images from NASA
- Utilized React and Vite to create responsive web design on any device
- Integrated AWS to host a server-less backend API

### Software Developer

Sept. 2022 - Oct. 2022

OnTheWay

- Developed a full-stack application that manages business inventory
- Created a backend API using Spring Boot and utilized DynamoDB to store product information and data
- Automated integration tests using the CI/CD pipeline and created unit tests using JUnit
- Integrated Lambda service to process data in real time and recommend inventory orders daily
- Recognized as the number 1 most useful real-world project in the class

## SKILLS

---

### Programming Languages

Java, JavaScript, HTML, CSS, C

### Tools/Technologies

AWS, AWS Lambda, Docker, Spring Boot, ThreeJS, RESTful, Tailwind

### Frameworks

React + React Native, SpringBoot

## EXPERIENCE

---

### Barista

Oct. 2018 - Present

Starbucks

*Rancho Cucamonga, CA*

- Communicated effectively to resolve customer issues and concerns, and collaborated with the team to complete tasks before deadlines
- Crafted drinks with extreme attention to detail and in a timely manner for customers
